NOTICE.

WE again have the pleasure of presenting our new catalogue, with the addition of several new and beautiful plants, particularly new Dahlias, Golden Tricolor and Zonale Geraniums, Dracænas, and miscellaneous novelties. These have been exhibited the past year, and have been awarded numerous first-class prizes.

Please give attention to the following :

ORDER SHEET. Use this in all cases, as it saves us time and insures the correct filling of orders.

NAME AND ADDRESS. Be careful to write your name in full, with post-office address, county and State distinctly written. Please also address Hovey & Co., 53 North Market Street, Boston, Mass., as our letters are often mis-carried.

EXPRESS. All plants will be sent by express unless specially ordered otherwise. We do not advise sending by mail only when a few plants are wanted, or where there is no express office. We can send much larger, stronger and better plants by express, which are sure to give better satisfaction.

Purchasers not familiar with the varieties will find it for their interest to leave the selection to us, as it is often difficult to judge of the merits of varieties by descriptions. We shall in all cases make the best selection possible.

NO CHARGE FOR BOXES, BASKETS, OR PACKING PLANTS.

PAYMENTS. Orders from unknown correspondents, unless accompanied by a remittance or satisfactory reference, will be sent C. O. D. Remittances may be made by Draft, Registered Letter, or Post-Office Money Order at our risk.

As our business includes both Seeds and Plants as well as Fruit Trees, Ornamental Shrubs, Evergreens, Vines, etc., orders for both may be sent together, and additional express charges saved. All such orders, however, should be made out on separate order sheets.

Our Seed Catalogue free on Application.

Our Nurseries and Greenhouses are at Cambridge, two miles from the city, but our friends and customers who would like to visit our grounds can do so, in a short time, by horse-cars from Bowdoin Square, which run directly there every fifteen minutes.

Our catalogue of Bulbs is published in August.

COLEUS, LADY BURRILL.

COLEUS.

The introduction of the Coleus as a decorative plant has changed the aspect of our gardens. By their grand masses of crimson, bronze, and gold or green foliage, effects are produced which no array of the gaudiest flowers accomplish. For plant-

ing in detached groups, or for forming ribbon lines, they are unequalled. Our warm summers are just suited to them, and their growth is so rapid that, in a few weeks, they form a mass of magnificent foliage. Heretofore we have been mostly indebted to foreign cultivators for new varieties, but new seedlings of our own growth are among the most distinct and beautiful. The following comprise a varied and splendid collection:—

Albert Victor, centre purplish red, with broad yellow margin.

Baroness Rothschild, rich, bronzy-crimson centre, fringed, yellow edged.

Those from pots take root at once, and flower abundantly. Purchasers leaving the selection to us will get a fine assortment of varieties, and generally better plants.

ORCHIDS.

These lovely plants are yet but little cultivated, undoubtedly, in a great degree, from the general impression that they are difficult to manage, requiring special care and a house expressly for them. Nothing is more erroneous. Many of the most beautiful kinds are no more difficult to grow than ordinary hothouse plants, and some of them flourish in a warm greenhouse. A few experiments with some of the cheaper kinds will show that all the supposed difficulties of treatment will soon disappear. Our collection comprises about forty varieties.

Ten varieties, our selection, \$20.

Extra large plants of some of the varieties can be supplied.
